ANNOUNCEMENT

SIXTY Years of continuous manufacturing experience is utilized in the manufacture of the products shown in this catalog. The same high quality that has made the Faries line recognized as the leader and standard in the industry since 1880 has been ardently and carefully maintained in our new line.

Naturally, while we have tried to include in this catalog all of the items that we feel that you or your trade may be interested in, the nature of the business itself makes it physically impossible to include everything we make, or are in a position to make. New developments both from a manufacturing standpoint and lighting standpoint mean that new products are constantly being developed. Therefore, if you cannot find what you are looking for in this catalog, write us, we may be making it but did not include it in the catalog, we may have it in contemplation or we may be able to make it up specially for you.

METAL FABRICATING is our business. We are making innumerable products for other industries, brass screw machine work, stampings—deep drawn work, spinings in both ferrous and non-ferrous metals. We can furnish fabricated parts only or complete assemblies, finished and packed in your cartons, to your specifications. We are furnishing manufacturers in all parts of the country, Brass, Bronze and Aluminum castings from their own patterns, as well as from a very large line of our own. If you are using castings, it will pay you to write us. We can furnish you the right kind at reasonable prices. We also make for the lighting fixture trade a complete line of brass fittings, spinings, stampings, castings, and automatic turnings—write for our catalog.

Finish: When ordering, be sure to state finish desired. If no finish is specified, we will always send first finish listed. In addition to standard finishes as listed in the catalog, we can supply any item in the catalog in almost any finish desired. Such finishes have to be handled specially and there will be additional charges as follows: Where Brushed Brass, Statuary Bronze or Normandie Bronze is the standard finish, the following finishes will be furnished at 15% additional: Black Iron, White Enamel, Ivory, Brown Tone, Jap Gold, French Gray, Nickel Plate, Flemish Brass, Brushed Copper, Verde Antique, Old Ivory, Ivory and Colors. 20% additional Antique Silver, Satin Silver and Pewter. Polished Chromium will be furnished at 25% additional.

HOW TO ORDER: Order by catalog number and name of goods, stating finish desired. Please do not use the words "Same as last". State whether goods are to be sent by freight, Parcel Post or express. Unless preference is given, we will ship according to our best judgment.

PRICES AND BILLINGS: Each order is billed separately at schedule prices as shown, depending upon quantity.

Minimum Billing Charge \$1.00. Orders cannot be grouped to obtain minimum prices. Every order is treated individually and billed according to schedule. One order cannot be added to another order already on file to obtain minimum prices. An order should specify shipment to one destination only. Where more than one destination is specified, each shipment will be considered a separate order and billed according to schedule. "Direct" shipments are billed according to schedule.

SPECIAL LAMPS: Any lamps ordered that are not in accordance with exact specifications given in our catalog are considered "special" and subject to special prices. Since specials are not carried in stock, immediate shipment cannot be made. Shipping dates on specials will be furnished when requested. Special lamps made according to special specifications are **not returnable**.

DELIVERY: All shipments are made F.O.B. Decatur, Illinois. Shipments are made "collect" unless otherwise specified. If shipment is prepaid, transportation charges are added to the invoice.

TERMS: 2% for cash within 10 days from date of invoice or net 30 days.

CREDIT: Unless you know yourself to be favorably reported by the commercial agencies, remittance should accompany the order or satisfactory references should be furnished.

C. O. D. SHIPMENTS: We will ship by Express, Parcel Post or by C. O. D. freight with Sight Draft and Bill of Lading attached, providing you accompany order with deposit amounting to 20% of total purchase.

PACKING AND CARTAGE: Our charge for boxing will always be reasonable, charging only enough to cover cost of material used in putting up goods. For Parcel Post there is an extra charge for special packing.

OUR RESPONSIBILITY: We use every care in packing our goods, and our responsibility ceases when we have obtained carrier's receipt in good order. If goods are received in damaged condition, we suggest calling the attention of the carrier's agent, securing the endorsement of the fact on your bill and filing your claim with the carrier's agent at once. If there are any errors, report them to us fully, at once, referring to the date of shipment and invoice and we will correct at once or advise you what to do.

CLAIMS: Shortages or errors must be reported within ten days after receipt of merchandise. All orders are accepted contingent upon fires, floods, accidents, labor trouble, delays of transportation companies, embargoes and other causes beyond our control.

RETURNED GOODS: **Do Not return** any material unless you first receive authorization and shipping instructions, explaining just why you want to return material. If any part is damaged, give us this information. If merchandise is not satisfactory due to defective material or manufacturing, we will replace. If not defective due to any fault of ours, we will make a charge for repairs.

Faries Safety Hangers

Made of No. 22 B and S Ga. Brass

The New Screwless Holder Offering a Superior Method for Supporting Glassware

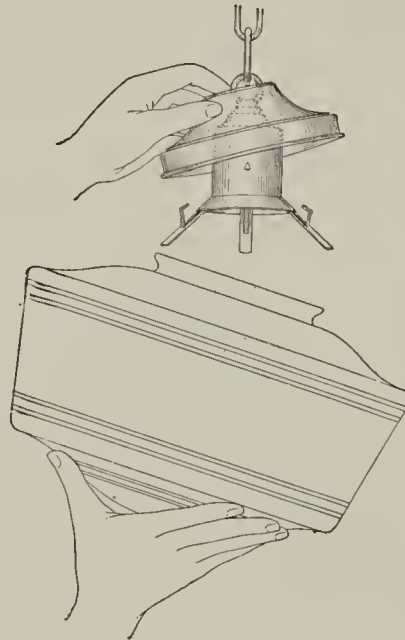

These New Improved Safety Hangers Have Received Most Favorable Response Throughout the Entire Building Trade. A Close Comparison Will Instantly Reveal Their Superiority and Many Advantages Over Other Types. The Ideal Ceiling Fixtures for Schools, Churches, Banks, Stores, Courthouses, Hospitals, Clubs, and All Public Buildings.

Architects, Contractors, Building Owners, Custodians, Janitors—All Claim Faries Patented Pendant and Ceiling Type Safety Holders Are Superior

Electroplated Statuary Bronze

Simply Raise Cover with One Hand—Tip Glass Slightly Over Supports Into Place with the Other. Lower Cover and Turn Slightly to Lock. Fits All Styles of Glass.

Made of Heavy 22 Gauge Brass

Electroplated Statuary Bronze

A Most Practical, Safe and Quickly Manipulated Hanger. Automatically Makes Glass Hang Straight. No Vibration or Rattle. Glass Can't Stick or Break from Expansion or Contraction.

Made of Heavy 22 Gauge Brass

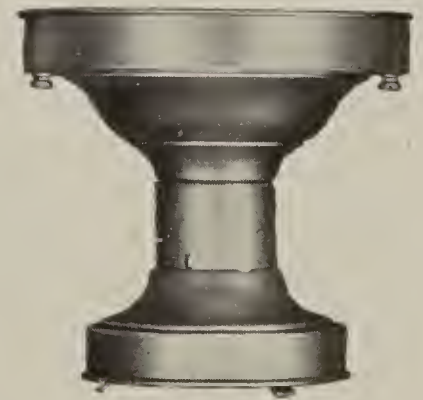

No. 971

Ceiling Type for 6-inch Glass

SECURITY!

NOW, You Can Stand High on a Ladder and Hang or Remove Glassware Safely and Quickly.

Individually Packed

No. 970

Ceiling Type for 4-inch Glass

Patented

No.	Type	Fitter	Type Socket	Canopy	Length	Standard Package	Wired Price Each
970	Ceiling	4"	Medium	6½" Diam.	6"	12	\$1.75
971	Ceiling	6"	Medium	6½" Diam.	6"	12	2.00
971M	Ceiling	6"	Mogul	6½" Diam.	6"	12	2.35

Ceiling Type Holders 6½ inches Diameter at Top. Both the Canopy and Cover Are 22 Gauge Brass. Wired Complete with Porcelain Socket and 9-inch Slow Burning Wire Leads, Strap, Screws and Thumb Knobs. Knock-Out in Canopy for Switch. Standard Finish Electroplated Statuary Bronze.

Faries Safety Hangers

Made of No. 22 B and S Ga. Brass

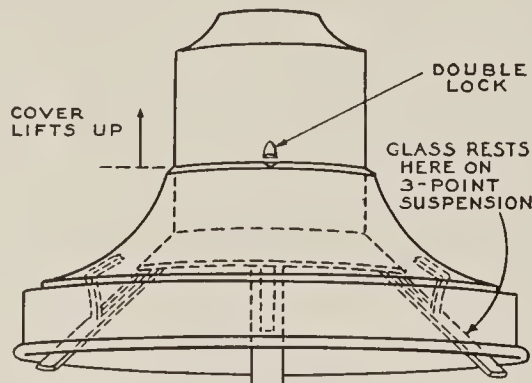

The New Screwless Holder Offering a Superior Method for Supporting Glassware

Simple and Durable

A Positive, Simple, Safety Holder, Free from Screws, Clamps, Straps or Springs. Nothing to Break or Get Out of Order. Made of Heavy Quality Material Throughout. No Adjustments Necessary. Fits All Glassware.

Double Safe

Supports Resting on Inside of Bowl Make It Impossible to Become Detached from Holder Until Cover Is Released by One Hand and Glassware Tilted to Correct Position with Other. You Can Then Use Both Hands in Removing Glass.

Patented

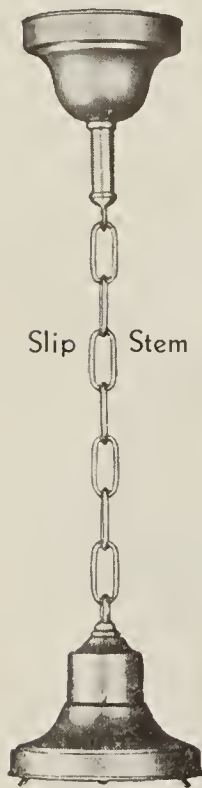

Glass Hangs Straight

Suspension Bar Rests, Spaced Equidistant at Three Points, Equalize the Weight and Balance of Glassware. It Automatically Hangs Straight. Slight Spring Tension by Cover Eliminates Rattle, Allows for Expansion by Heat, and Makes All Types of Glass Fit Snug.

Beautiful Designs

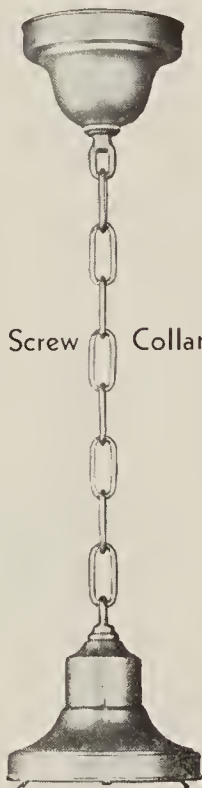

These Fixtures Fill the Need for Beauty of Design and Finish in Safety Hangers. They Are Straight Enough in Lines for Truly Modernistic Glass, Yet Curved Sufficiently to Look Well on Standard Commercial Bowls. Finished in Beautiful Electroplated Statuary Bronze.
